Download your eTextbooks to your Mac® or PC. Search, highlight and annotate, with or without access to the internet.

Download Bookshelf to your Mac® or PC:

Step 1

If you do not already have Vital**Source** Bookshelf® installed on your Mac® or PC, visit Vital**Source** Support at support.vitalsource.com and click **Download Bookshelf®.** Click the version of Bookshelf® that is applicable to your computer and operating system and follow the installation instructions.

Step 2

Once you have Vital**Source** Bookshelf® installed on your computer, log in with the credentials provided to you by your school. If you have not been provided any log in credentials, please contact your school administrator. An account has been created on your behalf. Please do not create another account.
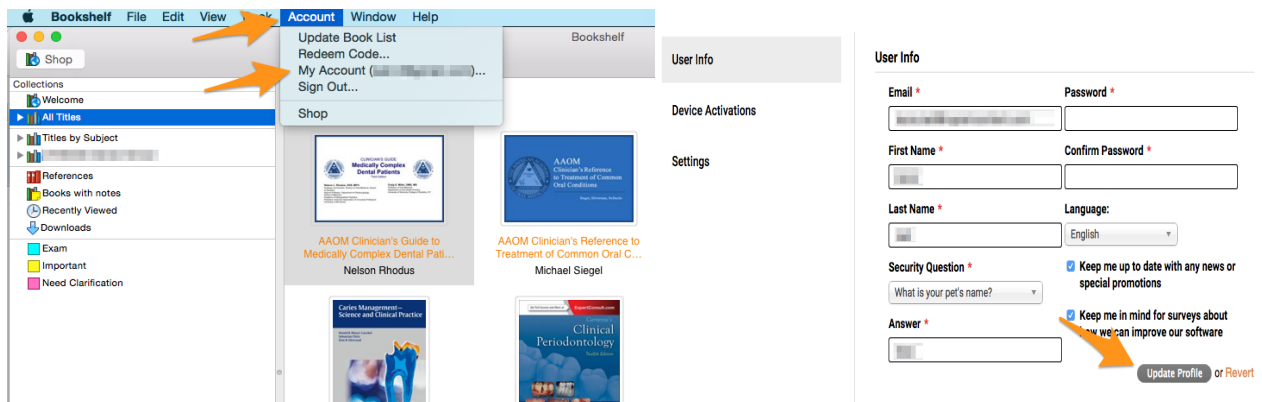

Step 3

If you would like to change the email address, password, or security question on your account, go to the **Account** menu and select **My Account**. Update your User Info and click **Update Profile**. Note if you change your email address, you will need to sign out of Bookshelf® and sign back in with your updated email address.

Don't forget you can also access your eTextbooks through Bookshelf Online® at online.vitalsource.com, and Bookshelf Mobile® on your Android, Apple, or Kindle Fire smartphone or tablet!
